JINADU KOLAPO JELILI

IT INFRASTRUCTURE | CLOUD & CYBERSECURITY | DEVOPS | DIGITAL PRODUCT DESIGN

Lagos, Nigeria • +234 818 178 5625 • kolapoj96@gmail.com • linkedin.com/in/kolapo-jinadu

PROFESSIONAL PROFILE

Technology professional with experience spanning enterprise IT service delivery, infrastructure operations, cloud and cybersecurity, digital healthcare systems, and technical support. Combines operational incident management, cross-functional collaboration and infrastructure monitoring with hands-on development and user-centred design. Provides cybersecurity and cloud infrastructure consulting as well as project-based UI/UX design services.

CORE CAPABILITIES

Enterprise IT Operations & ITSM • Incident Response & Root Cause Analysis • Windows / Linux Administration • Cloud Infrastructure & IAM • Cybersecurity Controls • Monitoring & Observability • DevOps / Containers • Network Support • UI/UX & Prototyping • Technical Documentation & Training

PROFESSIONAL EXPERIENCE

Head of Cybersecurity & Cloud Infrastructure — Project-Based Network Consultant | Expervia Technologies Not full-time; engagement dates to confirm

- Provide consulting support on cybersecurity, cloud infrastructure architecture, risk-aware technical decisions and operational resilience.
- Advise on security controls, infrastructure monitoring, identity and access management, and practical improvement priorities.

IT Service Delivery Analyst — Command Center / IT Engineering Operations | Access Bank Plc 2026

- Monitored mission-critical banking infrastructure and applications for availability, service performance and operational continuity.
- Coordinated network, server, application and cybersecurity teams during escalations, incident resolution and service restoration.
- Supported root cause analysis, SLA tracking, ITSM ticket documentation, stakeholder updates and change management.

Senior DevOps & Cybersecurity Engineer | Helium Health Technology 2024–2025

- Worked across cloud and hybrid infrastructure, security controls, monitoring, DevOps automation and healthcare technology reliability.
- Supported secure deployment practices, access management, vulnerability review, backup planning and operational documentation.
- Collaborated with technical and clinical teams to support dependable digital healthcare systems.

Independent Monitor — Consultant | World Health Organization (WHO) February 2025

- Monitored health campaign field activities, validated reporting data using ODK and supported quality and compliance checks.

Assistant IT Engineer | Nigeria Gas and Steel Ltd — Mouka Pipe Mill Division May 2019–Dec 2024

- Assisted with installation, maintenance and troubleshooting of servers, workstations, networks and enterprise applications.
- Supported Windows/Linux administration, Active Directory, Microsoft 365, network connectivity, virtualization and system updates.
- Maintained technical records, assisted with incident handling, backups and infrastructure upgrades.

INDEPENDENT DESIGN CONSULTING

UI/UX Designer — On-demand / project-based engagements (not a full-time employment role). Develops intuitive customer and brand experiences, wireframes, prototypes, interface concepts and design solutions aligned with client requirements.

SELECTED PROJECTS & PRACTICAL WORK

- Zabbix infrastructure monitoring lab — Windows and Ubuntu monitoring, Docker deployment and planning for enterprise Hyper-V rollout.
- PATHWAY Fleet — web/mobile fleet management platform concept with dispatch, driver assignment and shift-based location workflows (in development).
- Enterprise HR Hub — UI/UX concepts for holdings-wide workforce visibility and HR workflows.
- AWS APAC Solutions Architecture simulation — proposed scalable AWS Elastic Beanstalk hosting architecture (Forage, January 2025).

TECHNICAL TOOLKIT

Cloud & Security: Azure, AWS, IAM/RBAC, firewalls, VPNs, SIEM, Sentinel, Splunk | Infrastructure: Windows Server, RHEL/Linux, Hyper-V, VMware, TCP/IP, Active Directory | Monitoring: Zabbix, Nagios, Grafana, Azure Monitor | DevOps & Development: Docker, Kubernetes, Terraform, Ansible, Git, PowerShell, Bash, Python, C#, HTML, CSS, JavaScript | Design: Figma, wireframing, prototyping

EDUCATION

Yaba College of Technology — HND, Metallurgical Engineering, Upper Credit (3.46), 2024; OND, Metallurgical Engineering, Upper Credit (3.22), 2019.

CERTIFICATIONS & TRAINING

As listed on supplied CV: RHCSA (2026); AWS AI Practitioner (2026); AWS Cloud Practitioner (2026); Azure Security Engineer Associate AZ-500 (2026); Microsoft SC-900 (2025); Fortinet FortiGate Associate (2025); Fortinet FCF (2024); Cisco Networking Basics (2024); Azure AZ-900 (2024); Google Digital Skills (2019). Verify award dates and credential status before external publication.

LEADERSHIP

Vice President, National Association of Metallurgical and Materials Engineering Students (2019); Student Union Government judiciary representative, Yaba College of Technology (2021–2022).
